

Subject: Call for Manuscripts for the SECOND issue of ORL – Head and Neck Nursing Journal in 2025

Theme: Otolology and Neurotology

Dear SOHN Members and Colleagues,

We are thrilled to invite you to contribute to the vibrant and critical field of **Otolology and Neurotology** for the second issue of the ORL–Head and Neck Nursing Journal in 2025. This is your chance to help shape the future of healthcare in ear and skull base conditions related to hearing and balance.

Why Otolology and Neurotology? Both specialties play a pivotal role in advancing our understanding of complex auditory and vestibular systems, which significantly impact human communication, balance, and daily living. These specialties address skull-based lesions such as vestibular schwannomas and meningiomas, as well as glomus jugular tumors. They also include Cochlear implants, stapedectomy, and a range of tympanomastoidectomies and aural atresia surgeries. Research and insights in these fields not only lead to innovative treatments and interventions but also improve the quality of life for patients across the globe dealing with hearing and balance disorders.

Scope of the Call: We are seeking submissions that reflect original research, insightful reviews, compelling case studies, and impactful quality improvement projects within Otolology and Neurotology. Whether you are a seasoned researcher or new to this writing manuscripts, we encourage you to contribute. If you're looking for guidance, we're excited to offer mentorship opportunities to support your successful participation.

Submission Guidelines:

- Ensure your manuscripts align with the standards set forth by the ORL – Head and Neck Nursing Journal and [Equator Network](#).
- We welcome various manuscript types including original research, systematic reviews, meta-analyses, case studies, and perspectives.
- Please submit your work via the designated [SUBMISSION LINK](#) by November 30, 2024.

Review and Publication Process:

- Each submission will undergo a peer-review by experts in the field.
- Accepted papers will be published in April 2025, reaching an international community of healthcare professionals, researchers, and educators.

Important Dates:

- **Submission Deadline:** November 30, 2024
- **Peer Review:** December 1, 2024 - December 30, 2024
- **Typesetting:** January 1, 2025 – February 28, 2025
- **Proofreading:** March 1 – March 31, 2025
- **Publication Date:** April 2025

This is more than a call for papers; it's a call to be at the forefront of a field that bridges neuroscience, nursing, and patient care. We eagerly await your contributions that push boundaries and foster

significant advancements. For further inquiries or to discuss your submission, please don't hesitate to contact me at kris.estheimer@hsc.utah.edu.

Warm regards,
Kris Estheimer, BSN, RN, CORLN
Guest Editor ORL – Head and Neck Nursing Journal
